The result was that some of the flowers were fresh from the field, whereas most of them had spent several days in cold storage. Peterson Nursery staged some magnificent blooms and carried off over half of the prizes awarded. Ten first prizes stand to its credit on thirteen entries, and in five classes Peterson Nursery made clean sweeps, out of a list of twenty-one classes for peonies open to commercial growers. Among those in the list of prize-winners of this grower that won special admiration were Avalanche, a truly beautiful pure white; Couronne d'Or, shown in splendid shape; Delachie Eugenie Verdier and Livingstone. PEONY

Our stock is guaranteed true to description and we will REPLACE WITH THREE any that prove not true. We can make this UNPARALLELED guarantee because of the extreme care we have always used in growing our stock. Any peony is much surer to bloom, and will be twenty per cent stronger, if moved in September, so that new rootlets may form before freezing down. This gives a great advantage to home-grown stock over imported plants, which invariably come too late. All are listed under colors in the order of their blooming and described as by the American Peony Society.

The prices in our list are for stock packed for shipment. We begin filling orders early in September.
